POSITION: HYDRAULIC REBUILD TECHNICIAN

ABOUT BRIKERS

We're fixers - we've been rebuilding heavy equipment components for over 20 years. We dismantle whole equipment such as excavators, wheel loaders and rock trucks on site, rebuild the components to their original specifications, and test them on our in-house test bench. We take pride in what we rebuild, but most importantly, we value our people. We encourage continuous improvement and recognize and reward those for exceptional performance. We're managing our rapid growth and looking to expand, which is why we're looking for you!

POSITION SUMMARY

This position's primary responsibility is to apply expertise in inspecting each component and evaluating if it is rebuildable before moving forward with rebuild, testing and placing into inventory. The Hydraulic Rebuild Technician will also be responsible for other duties in the rebuild department as required. This position is full-time.

This is a full-time position for 40 hours/week and 8 hours/day. Work hours are between Mon - Fri 7:00am - 3:30 pm.

RESPONSIBILITIES:

- Inspect, troubleshoots, builds, repairs and tests hydraulic components such as pumps, motors, and valves.
- Adhere to quoted order and specific scope of work, component supply, and customer requirements.
- Parts needed for rebuilds and forwards to Lead-Hand and Director of Operations for approval.
- Performs honing and lapping of critical parts required.
- Ensures all rebuilt components pass test and if not, prepares a detailed condition reports explaining the reason.
- Paint, prep, and strap parts.
- Work on axles, transmissions, and swing bearings where required.
- Use company resources to accurately update rebuild status and maintain inventory locations.
- Forklift picked jobs.
- General warehousing.
- Maintaining consumable inventory.
- Conduct warranty failure analysis & repair.
- General maintenance of machinery and equipment.
- Completes work and test reports according to company procedures and forwards to Lead-Hand/Operations Manager.
- Documents on the intranet all work completed to the components, including parts used in the rebuild and whether they are new or used, OEM or after market.
- Maintains spotless working environment.
- Provides technical support to inside sales staff.
- Cores to determine if rebuildable and advises Lead Hand on next steps.
- Works as a team to continuously improve quality and processes, trains others if required.

QUALIFICATIONS:

- 2+ years of mechanical assembly experience and/or proven mechanical aptitude.
- Ability to interpret and accurately follow strict written work procedures.
- Demonstrates adaptability: willing and able to adjust to shifting priorities, shows resilience in the face of constraints or frustrations, is not knocked off balance by the unexpected
- Basic computer navigation and utilization skills.
- Hands on experience working on mechanical systems.
- Must possess an acute attention to detail and the ability to perform work accurately and thoroughly.
